PROFESSIONAL SUMMARY

Senior Full Stack Engineer with 10+ years of experience delivering scalable web and mobile applications for high-volume, multi-tenant SaaS platforms. Proven expertise in building intelligent systems, including call tracking platforms, dynamic multi-vendor solutions, and enterprise-grade applications, leveraging AI-driven workflows for automation, data extraction, and smart decision-making. Skilled in designing end-to-end solutions, optimizing performance, and integrating cloud infrastructure to enhance reliability, efficiency, and user experience. Strong collaborator across DevOps, QA, and product teams in Agile environments, driving innovation and AI-powered enhancements to business-critical applications.

SKILL SET

Core Competencies

- **Backend Development:** PHP, REST APIs, Laravel, Yii, Symfony, CodeIgniter, Custom Application Development
- **Frontend Development:** JavaScript, jQuery, AJAX
- **Databases:** MySQL, MongoDB
- **Cloud & DevOps:** AWS (S3, EC2, Route 53, Amplify, Load Balancer), cPanel Management (GoDaddy, AWS, Hostinger)
- **API Integrations:** Twilio, Plivo (call tracking, number provisioning, call routing), Payment Gateway Integrations, Custom Middleware for RESTful APIs
- **Tools & Platforms:** Git, Bitbucket, SVN, Git Bash, PHPStorm, SQLyog
- **Project Management & CRM:** Jira, Asana, Zoho, Zendesk
- **Software Architecture:** ERD Design, Scalable System Design, Multi-tenant SaaS Architecture
- **Testing & Quality Assurance:** Unit Testing, Test Case Documentation, TDD Practices
- **Soft Skills:** Strong team collaboration, ability to work independently, Agile/Scrum environments
- **AI & Modern Technologies:** Experience integrating AI-based solutions and automation into web applications. Familiar with building intelligent workflows, data-driven features, and scalable AI-enhanced systems
- AI, text extraction, and dynamic document generation | AI prompt engineering

Mid-Level Experience

- **Mobile Development:** Android, Swift (iOS)
- **Backend & Real-Time Technologies:** Node.js, Socket.io
- **Frontend Development:** AngularJS, HTML
- **Integrations & Platforms:** HubSpot, Stripe, 2Checkout, PayPal
- **Testing & Quality:** Unit Testing, Integration Testing and Test Case Implementation

Basic Understanding

- PL/SQL
- Bootstrap | CSS | HTML
- React.js
- Excellent office administration skills.
- Team collaboration & Agile workflow
- Customer service and interpersonal communication
- Excellent customer service skills.
- Multitasking, organization, attention to detail

EXPERIENCE

01/2022 – present

SIMPLIFYVMS (SUPERTEK)

WFH, Pk

Senior Software Engineer

- Leading development of a **multi-tenant SaaS VMS platform** (vendor management system)
- Developed **Simplify**, a multi-role platform (Super Admin, Vendor, HR/Worker) handling job creation, vendor assignment, candidate shortlisting, interviews, contracts, timesheets, invoicing, reporting, and multi-currency payments. Implemented **multi-language support**
- Designed and maintained **scalable backend modules** using **Yii2, Symfony and Laravel**
- Built **reporting dashboards and logging systems** using **MongoDB**
- Collaborated on **V2 & V3 architecture redesign** with cross-functional teams
- Managed **client-specific deployments** across multiple repositories and servers
- Integrated internal and external **RESTful web services**
- Worked in Agile environment using **Jira, Zoho, Bitbucket, Jenkins (CI/CD)**
- Partnered with **DevOps, DBA, and Customer Success teams** for production support

02/2018 – 01/2022

AVIDTRAK (Agile support partners)

Karachi, Pk

Senior Software Engineer

- Developed call tracking and analytics platform with integrations: **Twilio, Plivo, Zendesk, HubSpot**
- Developed Product, a call tracking platform enabling users to purchase multiple numbers, reroute calls, record and track conversations, and generate detailed reports. Implemented **high-volume data handling** with database sharding to efficiently manage thousands of records, ensuring scalability and reliability.
Built **call center operations platform** using **Symfony**, enabling efficient management of calls, agents, routing, and real-time monitoring for high-volume operations.
- Built and maintained **REST APIs** for web and mobile applications
- Delivered **Android & iOS** apps integrated with backend services
- Implemented real-time communication systems and **call routing** logic
- Improved system reliability through **error handling** and logging mechanisms

04/2016 – 01/2018

GOLPIK

Senior PHP Developer (Lead)

- Delivered multiple **end-to-end web applications** from requirements to deployment
- Designed **database schemas and backend architecture** for high performance
- Ensured **responsive UI integration with backend services**
- Managed **client communication and requirement analysis**

02/2015 – 03/2016

SYMMETRY GROUP

Senior PHP Developer

- Developed CMS-based web solutions for digital campaigns
- Developed a dynamic, multi-vendor salon management platform with custom modules to support multiple salon registrations and scalable architecture.
- Integrated APIs: **PayPal, Facebook, Twitter**
- Built **custom admin panels and dynamic web modules**

10/2013 – 01/2015

TRADEKEY

PHP Developer

- Developed and maintained **large-scale marketplace modules**
- Optimized database queries and improved performance
- Built reusable components and ensured code quality

06/2013 – 08/2013	CODENTERPRISE Software Developer Internship - Assisted in development and testing of web applications - Worked in Agile team with QA and project management	Islamabad, Pk
